Chairman's Statement
董事長致辭

Dear Shareholders,

On behalf of the Board of Directors, I am pleased to present the annual report of 3D Medicines Inc. for the year ended December 31, 2022.

2022 was a remarkable year for 3D Medicines Inc., as we achieved several milestones that demonstrated our strong execution and innovation capabilities. Here are some of the highlights of our achievements:

The sales of 恩維達® (Envafolimab, subcutaneously-injectable PD-L1) exceeded HKD500 million and 7 indications were listed in clinical recommendation guidelines, including six in CSCO Guidelines and one in Chinese Anti-Cancer Association Guideline, reflecting the recognition and endorsement by the medical community and its potential to benefit more cancer patients. We have 10 clinical trials which are currently being conducted, and one pivotal trial has been approved by the US FDA. A supplemental NDA for an increased dose of 300 mg administered every two weeks was approved by NMPA that greatly improves patient convenience and provides better treatment options for cancer patients.

尊敬的股東們，

我謹代表董事會，榮幸地向您呈現3D Medicines Inc. 截至2022年12月31日止年度報告。

2022年是3D Medicines Inc.的一個非凡之年，我們取得了多項里程碑式的成就，彰顯了我們強大的執行力和創新能力。以下是我們取得的一些亮點：

恩維達®(Envafolimab，皮下注射PD-L1)的銷售額超過5億元港幣，並有7個適應症列入了臨床推薦指南，其中包括中國臨床腫瘤學會(CSCO)指南的6個適應症和中國抗癌協會指南的1個適應症。這反映了學術界對我們的認可和支持，以及恩維達®對更多癌症患者的潛在益處。我們目前正在進行10項臨床試驗，其中一項關鍵試驗已獲得美國FDA批准。國家藥監局也批准了增加每兩周300毫克劑量的補充新藥申請，這大大提高了患者用藥的便利性，為腫瘤患者提供了更好的治療選擇。

We advanced our robust and highly synergistic pipeline of 12 innovative drugs or drug candidates into next phase of development. Batiraxcept (3D229) is a fusion protein binding of GAS6 to its receptor AXL and block the activation of the GAS6-AXL signaling pathway. We completed the Phase I bridging study in China and proceeded to the Phase III MRCT in patients with platinum resistant ovarian cancer. 3D189 (Galinpepimut-S) is a peptide cancer vaccine that targets the WT1 protein. 3D189 has been granted fast track and orphan drug designations by the FDA for the treatment of AML. We received NMPA approval to join an ongoing Phase III pivotal trial in the U.S. and Europe for the treatment of AML.

我們極具特點和高效協同的12種創新藥物或候選藥物進入下一階段的研發。巴替瑞西普(Batiraxcept，3D229)是一種阻斷GAS6與其受體AXL結合的融合蛋白，能夠阻止GAS6-AXL信號通路的啟動，我們已完成了在中國的I期橋接試驗，並正在開展用於治療鉑耐受的卵巢癌(PROC)患者的III期國際多中心臨床研究。3D189 (Galinpepimut-S)是一種針對WT1蛋白的多肽腫瘤疫苗，FDA已將3D189授予了用於治療AML的快速通道和孤兒藥物認定。我們也獲得了國家藥監局批准加入在美國和歐洲進行的AML治療的III期國際多中心關鍵臨床試驗。

Our financial performance in 2022 reflects our strong operational execution and prudent capital allocation. We have generated revenues of RMB567.4 million in 2022, representing an 841.6% increase from 2021. We have also maintained disciplined control over our operating expenses, and our research and development expenses were RMB350.9 million in 2022. As of December 31, 2022, Cash and cash balances, financial assets at fair value through profit and loss and financial assets measured at amortized costs of RMB942.0 million. We had cash and cash equivalents of RMB696.7 million, which we believe is sufficient to fund our operations for at least the next two years.

我們在2022年的財務業績反映出我們強大的運營執行能力和穩健的資本配置策略。我們實現了人民幣567.4百萬元的營業收入，與2021年對比同比增長了841.6%。我們還保持了對運營支出的嚴格控制，2022年研發支出為人民幣350.9百萬元。截至2022年12月31日，現金及現金等價物、以按公平值計入損益的金融資產及以攤餘成本計量之金融資產為人民幣942.0百萬元，我們現金及現金等價物為人民幣696.7百萬元，足以支持我們至少未來兩年的運營支出。

These achievements reflect our dedication to discovering, developing and commercializing safe and effective innovative drugs for cancer patients who need long-term treatment, and our ability to leverage our resources integration, global business development, clinical development and registration capabilities.

這些成就反映出我們致力於為需要長期治療的腫瘤患者提供安全有效的創新藥物的發現、開發和商業化，以及我們的資源整合、全球業務拓展、高效的臨床開發和監管溝通能力。

Looking ahead, we are confident that we are well-positioned to achieve our vision of transforming cancer from a terminal illness into a manageable chronic condition. We have a robust pipeline of differentiated cancer therapies that address unmet medical needs and offer significant value proposition to patients, physicians and payers. We have a talented and passionate team of scientists, clinicians and professionals who are committed to delivering on our promise of bringing hope and healing to millions of cancer patients around the world. We have a supportive and visionary group of shareholders who share our long-term perspective and strategic direction.

展望未來，我們有信心實現將腫瘤轉變為慢性病的願景：我們擁有解決未滿足臨床需求的腫瘤治療藥物管線，將為患者、醫生和支付者提供更多的價值和獲益；我們有由科學家、臨床醫生和專業人士組成的專業嚴謹、充滿激情的團隊，專注於為全球腫瘤患者帶來更多更好的治療選擇；更為重要的是，我們很榮幸擁有一群有遠見且支持我們長期發展的優秀股東。

BUSINESS OVERVIEW

1. Our First Commercialized Product – 恩維達® (Envafolimab, Subcutaneously-Injectable PD-L1)

恩維達® (Envafolimab, Subcutaneously-Injectable PD-L1) is a fusion protein of single domain PD-L1 antibody, which is a subcutaneously-injectable PD-L1 inhibitor for the treatment of tumor-agnostic indications, and it has been approved in China for the treatment of previously treated MSI-H/dMMR advanced solid tumors.

– *Successful Business Model Generating Revenue*

For the year ended December 31, 2022, our revenue generated from the sales of envafolimab in China amounted to RMB567.4 million.

– *A sNDA approval from NMPA*

In August 2022, the NMPA approved a supplemental application for "an increased dose of 300 mg administered every two weeks" for envafolimab. This approval is based on clinical pharmacology data from our sites in China, the United States and Japan. The approval of the increased dosage will significantly reduce the frequency of drug use, improve patient convenience and provide better treatment options for oncology patients.

– *10 trials are currently being conducted, two new INDs have been approved by NMPA and the US FDA*

- A Phase Ib/II, multi-center, open-label study to evaluate the envafolimab in combination with lenvatinib for the treatment of patients with late-stage solid tumors. The enrollment of last patient in the Ib part has been completed and the study is ongoing as planned.

- A Phase II study to evaluate envafolimab in combination with lenvatinib for the treatment of patients with late stage non-MSI-H/non-dMMR endometrial cancer who failed at least first line or intolerance to platin treatment. A first patient has been enrolled and the study is ongoing as expected.

2. Batiraxcept (巴替瑞西普，3D229)

Batiraxcept is a high-affinity, soluble Fc-fusion protein designed to bind Growth Arrest Specific 6 (GAS6), intercept the binding of GAS6 to its receptor AXL and block the activation of the GAS6-AXL signaling pathway.

We received IND approval for Phase I clinical trial in healthy volunteers in China in May 2021 and completed this Phase I clinical trial in May 2022, and its findings were presented at the CSCO conference in September 2022. In addition, we obtained IND approval for a on-goning Phase III clinical trial in patients with PROC in China in July 2021 to participate in the MRCT, and we initiated this trial in China in February 2022.

In November 2022, our partner Aravive issued an announcement that batiraxcept was granted fast track status by the FDA for the treatment of patients with advanced or metastatic clear cell renal cell carcinoma (ccRCC) who have progressed after prior treatment with first- or second-line systemic therapy. In December 2022, our application of sIND for CMC change was approved by CDE. With this approval, 3D229 samples produced by the new process can be used in clinical studies.

As of the date of this report, Aravive announced the full enrollment in the registrational Phase III pivotal trial of batiraxcept plus paclitaxel for PROC in the U.S. and Europe has been achieved.

2、 巴替瑞西普(Batiraxcept，3D229)

3D229是一種高親和力的可溶性Fc融合蛋白，阻斷GAS6與其受體AXL的結合，並阻斷GAS6-AXL信號通路的激活。

我們於2021年5月獲得了在中國健康志願者I期臨床試驗的批准，2022年5月完成該項臨床試驗，並於2022年9月的CSCO會議上公佈試驗結果。此外，我們於2021年7月獲得在中國對PROC患者進行III期多區域臨床試驗的批准，並於2022年2月啟動該試驗。

2022年11月，我們的合作夥伴Aravive發佈公告稱，巴替瑞西普被FDA授予快速通道資格地位，用於治療在接受一線或二線全身治療後出現疾病進展的晚期或轉移性腎細胞癌(ccRCC)患者。2022年12月，CDE批准了我們的CMC sIND變更申請。通過該批准，新工藝生產的3D229樣品可用於臨床研究。

截至本報告日期，Aravive正在美國和歐洲對3D229進行治療PROC的III期關鍵試驗評估，入組已經完成。

3. Galinpepimut-S (3D189)

Galinpepimut-S is a peptide cancer vaccine that targets the WT1 protein, which is present and over-expressed in an array of hematological malignancies and solid tumors. 3D189 has been granted fast track and orphan drug designations by the FDA for the treatment of AML.

We obtained IND approval for 3D189 in China in April 2022 and completed the first patient dosing in the Phase I clinical study in China in October 2022 for WT1-positive AML patients in complete remission after completion of at least first-line standard therapy and patients with multiple myeloma, non-Hodgkin's lymphoma, or high-risk group myelodysplastic syndromes who have achieved complete remission or whose best treatment response is partial remission.

Our partner SELLAS Group has completed Phase II trial in AML patients in their first complete remission, and the results showed that the median overall survival (OS) was 67.6 months (all ages) for patients in the maintenance setting, which represents a substantial improvement compared to the best standard therapies. The results also showed a trend in improved clinical outcomes in patients who mounted an immune response with galinpepimut-S (GPS) compared to those patients who did not.

We completed the manufacuture of the clinical batches in China for 3D189's active pharmaceutical ingredients (API) in October 2022. As of the date of this report, 3D189 is being evaluated by SELLAS Group in an ongoing Phase III pivotal trial in the U.S., and Europe for the treatment of AML. We maintain the exclusive rights to develop, manufacture and commercialize 3D189 in Greater China.

3、 Galinpepimut-S (3D189)

3D189是一種針對WT1蛋白的多肽癌症疫苗，該蛋白在一系列血液惡性腫瘤和實體瘤中存在並過度表達。3D189已被FDA授予治療急性髓系白血病(AML)的快速通道資格認定和孤兒藥物資格認定。

我們於2022年4月在中國獲得了3D189的IND批准，並於2022年10月在中國完成了WT1陽性AML患者在完成至少一線標準治療後完全緩解，或已獲得完全緩解或其最佳治療反應為部份緩解的多發性骨髓瘤、非霍奇金淋巴瘤或高危組骨髓增生異常綜合症的I期臨床試驗第一例患者臨床給藥。

我們的合作夥伴SELLAS集團已經完成了AML患者首次完全緩解的II期試驗，結果顯示，維持治療組患者的中位總生存期(OS)為67.6個月（所有年齡段），與最佳標準治療相比，這意味著顯著改善。結果還顯示，與沒有免疫應答的患者相比，使用galinpimut-S(GPS)獲得免疫反應的患者的臨床結果有改善的趨勢。

我們於2022年10月完成了3D189活性藥物成份(API)臨床批次於中國的生產。截至本報告發佈之日，SELLAS集團正在美國和歐洲進行一項治療AML的III期關鍵試驗，對3D189療效進行評估。我們獲得了3D189大中華區開發、製造和商業化的獨佔許可。

概覽

以下討論是基於並應與本報告中其他位置包含的財務信息和註釋一起閱讀。

Revenue

During the Reporting Period, all of our product sales was generated from the sales of commercialized 恩維達® (Envafolimab, Subcutaneously-Injectable PD-L1). In 2021 and 2022, product sales amounted to RMB60.3 million and RMB567.4 million, respectively, increased by 841.6%. The increase was primarily attributable to product sales from 恩維達® which was approved in late November 2021 and commercialized in December 2021. We benefitted from differentiation advantages of the product itself, strategically cooperating with mature sales platform ahead of the launch and highly productive sales force. Thus, our newly approved 恩維達® achieved strong sales results in the fierce market competition.

收入

報告期內，我們的產品收入來自產品恩維達®(Envafolimab，皮下注射PD-L1)在中國區的銷售收入。2021和2022年，我們的收入分別為人民幣60.3百萬元和人民幣567.4百萬元，增長841.6%。增長主要歸因於產品銷售額快速增長，該產品於2021年11月下旬獲得批准並於2021年12月開始在中國市場銷售，得益於產品自身差異化優勢和與成熟的銷售平台的戰略合作和高效的銷售隊伍，恩維達®在激烈的市場競爭中取得了強勁的銷售業績。

Cost of Sales

During the Reporting Period, the cost of sales were purchase prices of our 恩維達® we paid to our contract manufacturer for the manufacturing of our 恩維達®. Our cost of sales amounted to RMB4.3 million and RMB42.2 million in 2021 and 2022, respectively, which increased by 887.0%. The increase in cost of sales was mainly attributable to the increase in the number of units sold for 恩維達® (Envafolimab, Subcutaneously-Injectable PD-L1).

銷售成本

報告期內，我們的銷售成本為我們向合約生產商就生產恩維達®支付的採購成本。2021和2022年，我們的銷售成本分別為人民幣4.3百萬元和人民幣42.2百萬元，增加887.0%。增加主要歸因於恩維達®的銷售增長帶來的產品成本增加。

Gross Profit and Gross Profit Margin

The Group's gross profit increased by 838.1% from RMB56.0 million for the year ended December 31, 2021 to RMB525.2 million for the year ended December 31, 2022. It was mainly attributable to the strong increase in product sales. Our gross profit margin reached 92.9% and 92.6% in 2021 and 2022, respectively. The stable gross profit rate shows that our business model has achieved initial success.

毛利潤及毛利率

本集團的毛利潤由截至2021年12月31日止年度的人民幣56.0百萬元增長至截至2022年12月31日止年度的人民幣525.2百萬元，增幅達838.1%。這主要歸因於產品銷售額的強勁增長。2021和2022年，我們的毛利率分別達到了92.9%和92.6%，基本保持穩定，這也驗證了我們的商業模式取得初步成功。

Other Income and Gains

During the Reporting Period, our other income and gains primarily consisted of (i) foreign exchange gains; (ii) government grants income; and (iii) interest income. For the years ended December 31, 2021 and 2022, we recorded other income and gains of RMB19.6 million and RMB48.9 million, respectively. The increase was primarily attributable to an increase in the foreign exchange gain of RMB34.9 million resulted from the appreciation of the U.S. dollar against RMB, which is our functional and reporting currency.

The slight decrease is mainly due to the following reasons: (i) the upfront and milestone cost associated with the exclusive development rights in designated regions of our in-licensed drug candidates is reduced by RMB55.9 million; and (ii) employee benefit expenses including salaries, social insurance, pension, bonus,and share-based expenses related to our research and development personnel decreased by RMB14.1 million. Such decrease was partially offset by an increase in the third-party contracting expenses paid to service providers of RMB46.1 million.

小幅減少的主要原因是(1)與我們的授權引進候選藥物在指定地區的獨家開發權相關的前期和里程碑費用減少人民幣55.9百萬元；及(2)第三方承包費用增加人民幣46.1百萬元，(3)以股權激勵為基礎的僱員和福利相關開支減少人民幣14.1百萬元。

The increase was primarily attributable to the increase in sales of the 恩維達® since December 2021. It is noted that the rate of increase in revenue in 2022 (i.e. 841.6%) is faster than the rate of increase in selling and marketing expenses in 2022 (i.e. 735.0%).

銷售及營銷開支

報告期內，我們的銷售及營銷支出主要體現在中國市場恩維達®商業化而進行的市場推廣活動，該費用的支出為遵循行業慣例而每月支付的營銷服務費。截至2021和2022年12月31日止年度，我們記錄的銷售和營銷開支分別為人民幣42.8百萬元和人民幣357.7百萬元，同比增長735.0%。增長的主要原因是由與恩維達®自2021年12月起銷售的增長。2022年銷售收入的增長率(841.6%)高於銷售及營銷開支的增長率(735.0%)。

The Group conducted an ECL assessment according to forward-looking information and used appropriate models and assumptions in its expected measurement credit losses. 金融資產減值虧損淨額

報告期內，我們的金融資產減值虧損代表了我們的貿易應收賬款及以攤餘成本計量的金融資產的預期信貸損失。截至2021年12月31日和2022年12月31日止年度，我們記錄的金融資產減值虧損分別為人民幣0.1百萬元和人民幣1.2百萬元。這一增長主要歸因於2022年貿易應收款項增加人民幣13.0百萬元，以攤餘成本計量的金融資產增加人民幣136.7百萬元。我們根據前瞻性信息進行了ECL評估，並在其預期計量信用損失中使用了適當的模型和假設。這些模型和假設與未來宏觀經濟狀況和借款人的信用度有關（例如，借款人違約的可能性和相應的損失）。

Other Expenses

During the Reporting Period, our other expenses primarily consisted of donations. For the years ended December 31, 2021 and 2022, we recorded other expenses of RMB8.9 million and RMB53.4 million, respectively. The increase was primarily attributable to an increase in donations of RMB51.9 million worth of 恩維達® and cash we made to a non-profit charity organization, which supports cancer patients for public welfare purposes.

Non-IFRS Measures

In order to supplement our consolidated statements of profit or loss and other comprehensive income which are presented in accordance with IFRS, we use adjusted loss and total comprehensive loss as an additional financial measure, which is not required by, or presented in accordance with IFRS. Our adjusted loss and total comprehensive loss represents our loss and total comprehensive loss for the year, adjusted to add back fair value losses on preferred shares and share-based payment expenses. We believe that such measure provides investors and other persons with useful information to understand and evaluate our consolidated results of operation in the same manner as it helps our management. However, adjusted net loss presented by us may not be comparable to the similar financial measure presented by other companies. There are limitations to the non-IFRS measure used as an analytical tool, and you should not consider it in isolation or regard it as a substitute for our results of operation or financial position analysis that is presented in accordance with IFRS.

其他開支

報告期內，我們的其他開支主要包括藥品捐贈。截至2021年12月31日和2022年12月31日止年度，我們記錄的其他開支分別為人民幣8.9百萬元和人民幣53.4百萬元。增加的主要原因是我們向一家為癌症患者提供幫助的非營利性慈善組織捐贈了價值人民幣51.9百萬元恩維達®及現金，以支持公益。

外匯損失源於記賬本位幣人民幣和美元之間的匯率波動。

Chairman and Chief Executive Officer

Code provision C.2.1 of the CG Code stipulates that the roles of chairman and chief executive officer should be segregated and should not be performed by the same individual. According to the current structure of the Board, the positions of the Chairman and Chief Executive Officer of the Company are held by Dr. Gong Zhaolong.

董事長兼首席執行官

《企業管治守則》第C.2.1條規定，董事長和首席執行官之職位應予區分，由不同人士擔任。根據目前的董事會結構，公司董事長和首席執行官的職位由龔兆龍博士擔任。

The Board believes that this structure will not impair the balance of power and authority between the Board and the management of the Company, given that: (i) decision to be made by the Board requires approval by at least a majority of the Directors and that the Board comprises three independent non-executive Directors out of seven Directors, and the Board believes there is sufficient check and balance on the Board, (ii) Dr. Gong Zhaolong and the other Directors are aware of and undertake to fulfil their fiduciary duties as Directors, which require, among other things, that they act for the benefit and in the best interests of the Company and will make decisions of the Group accordingly, and (iii) the balance of power and authority is ensured by the operations of the Board which comprises experienced and high caliber individuals who meet regularly to discuss issues affecting the operations of the Group. Moreover, the overall strategic and other key business, financial and operational policies of the Group are made collectively after thorough discussion at both the Board and senior management levels. Finally, as Dr. Gong Zhaolong is our principal founder, the Board believes that vesting the roles of both chairman and chief executive officer in the same person has the benefit of ensuring consistent leadership within the Group and enables more effective and efficient overall strategic planning for the Group. The Board will continue to review the effectiveness of the corporate governance structure of the Group in order to assess whether separation of the roles of chairman and chief executive officer is necessary.

董事會認為，這結構不會損害公司董事會與管理層之間的權力和權威平衡，鑒於：(i)董事會做出的決策需要至少大多數董事的批准，並且董事會七名董事中有三名獨立非執行董事，董事會認為董事會有足夠的審查和制衡機制；(ii)龔兆龍博士和其他董事均瞭解並承諾履行其作為董事的受託責任，這要求他們為公司的利益和最佳利益的方式行事，並基於此為本公司做出決策；以及(iii)董事會的運作確保了權力和權威的平衡，董事會由經驗豐富的高素質人士組成，他們定期開會討論影響集團運營的問題。此外，集團的整體戰略和其他關鍵業務、財務和運營政策是在董事會和公司管理層進行徹底討論後集體制定的。最後，由於龔兆龍博士是我們的主要創始人，董事會認為，將董事長和首席執行官的角色交給同一個人有助於確保集團內部的一致領導，並使集團能夠進行更有效的整體戰略規劃。董事會將繼續審查本集團企業管治結構的有效性，以評估是否有必要將董事長和首席執行官的角色分開。

Independent Non-executive Directors

Since the Listing Date to the date of this annual report, the Board has at all times fulfilled the requirements of the Listing Rules relating to the appointment of at least three independent non-executive directors representing one-third of the board with one of whom possessing appropriate professional qualifications or accounting or related financial management expertise.

Further, independent non-executive directors will be appointed to committees of the Board as required under the Listing Rules and as far as practicable to ensure independent views and input are available. 獨立觀點

董事會已制定機制，以確保可向董事會提供獨立觀點及意見。董事會確保至少任命三名獨立非執行董事，且至少三分之一的董事會成員為獨立非執行董事。此外，獨立非執行董事將根據上市規則的規定及在實際可行的情況下獲委任為董事會委員會成員，以確保可提供獨立觀點及意見。提名委員會就提名及委任獨立非執行董事嚴格遵守上市規則所載的獨立性評估標準，並獲授權每年對獨立非執行董事的獨立性進行評估，以確保其能夠持續作出獨立判斷。全體董事亦可獲取獨立專業意見，以履行其職能，費用由本公司承擔。

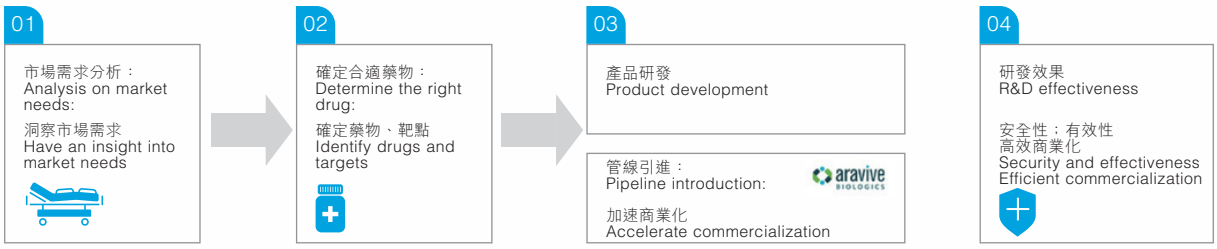
The Company is striving to improve its own R&D and production capacity, and actively build an industrial model integrating study and production. The Company is constructing internal production facilities in Xuzhou City, Jiangsu Province. The manufacturing system and facilities for the entire drug development process (including chemical and biological agents) comply with current good manufacturing practices (cGMP) and meet strict global standards. To prepare for the large demand for drugs after commercialization, we have purchased land use rights with a total area of 65,637.97m2 in Xuzhou. The Company has obtained a construction permit and started constructing new production facilities in Xuzhou City.

（三）研發與生產基地建設

公司正努力提升自身研發及生產能力，積極構建研產一體的產業模式。我們正在江蘇省徐州市建造內部生產設施，整個藥物開發過程（包括化學藥及生物製劑）的製造系統及設施符合現行優良生產品質管理規範(cGMP)，以達致嚴格的全球標準。為準備商業化後對藥品的大量需求，我們購入位於徐州的總面積為65,637.97平方米的土地使用權。我們已取得施工許可證，並開始於徐州建設新生產設施。

(IV) Drug Accessibility

（四）藥物可及性

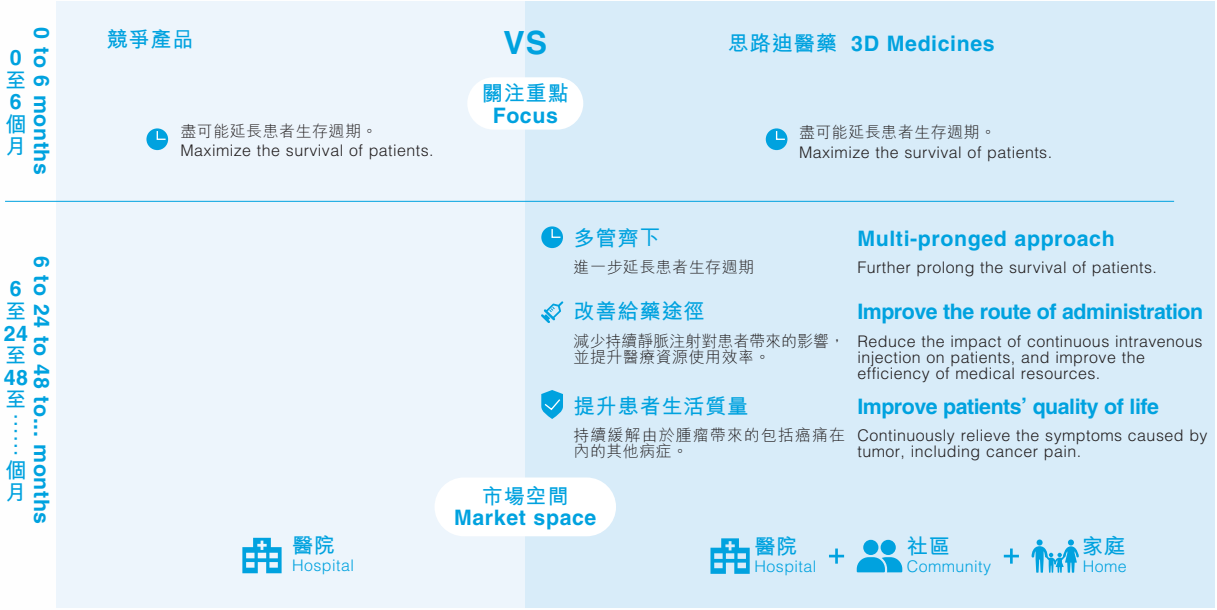


Hoping to make every patient have access to drugs that are at the forefront of the world and meet different clinical needs, the Company always believes that drug R&D shall develop drugs that meet the patient needs and are easily accessible from the perspective of the accessibility of drugs. Therefore, the Company improves the accessibility of its products in terms of discovery that never meets clinical needs, acceleration of clinical trials and drug marketing, expansion of drug sales channels, etc., striving to benefit the public.

我們一直希望可以讓每一個病人都可以使用到全球前沿且可滿足不同臨床需求的藥物，因此，我們始終認為藥物研發要從藥物的可及性出發，研製符合患者需要且便於獲得的藥物。因此，我們從未滿足臨床需求的發現，加速臨床試驗及藥物上市，擴展藥物銷售管道等方面提高我們產品的可及性，力求可以廣利於眾。

In terms of the discovery that does not meet clinical needs, the Company always pays attention to the academic development in the field of cancer, analyzes the unmet clinical needs in the field, and actively communicates with scientific consultants, top domestic scholars and experts to understand the urgent problems to be solved in clinical practice. For the treatment of PD-(L)1 resistant patients, the Company has carried out a series of exploratory clinical trials for PD-L1 combination to give these patients without treatment options new treatment options. The Company also actively introduces new foreign mechanistic therapeutic drugs, such as joining the international multi-center clinical trial developed globally by Batiraxcept (3D229), so that Chinese patients with advanced platinum-resistant relapsed ovaries can receive the most innovative drugs simultaneously with global patients. The Company also launched the Phase I clinical study of the cancer vaccine 3D189 (Galinpepimut-S (GPS)) in patients with hematological tumors, so that Chinese patients with acute myeloid leukemia who are unable to undergo hematopoietic stem cell transplantation can continue to remission from the cancer vaccine treatment. The Company will also continue to focus on cancer patients accounting for a small amount, such as MSI-H/dMMR and TMB-H patients, so that patients with rare cancers can also have better treatment.

在未滿足臨床需求的發現方面，我們時刻關注腫瘤領域學術發展，分析領域尚未滿足的臨床需求，並積極與科學顧問、國內頂級學者專家溝通交流，瞭解臨床實踐中亟待解決的問題，如針對PD-(L)1耐藥患者的治療，我們開展一系列PD-L1聯合用藥的探索臨床試驗，給這部分無治療方案的患者新的治療選擇。我們也積極引進國外全新機制治療藥物，如加入巴替瑞西普（Batiraxcept，3D229）全球研發的國際多中心臨床試驗，讓中國晚期鉑耐藥復發卵巢患者與全球患者同步接受最創新的藥物。我們同時啟動了腫瘤疫苗3D189（Galinpepimut-S，簡稱GPS）在血液腫瘤患者的I期臨床研究，讓無法進行造血幹細胞移植的急性髓細胞白血病中國患者能從該腫瘤疫苗治療中持續緩解。我們繼續關注患者人群佔比較小腫瘤，如MSI-H/dMMR，TMB-H患者，讓罕見瘤腫患者也有更好的治療。



In terms of clinical trials and drug marketing, we start and operate clinical trials efficiently in the order of priority, and establish a project group management system for the trials. All departments collaborate at the project group level to reduce communication costs and improve efficiency, and the project group supervises the execution of the trials and report regularly to ensure the quality and progress of the trials.

Meanwhile, we actively build our drug sales network. In 2022, our first commercial product, Envafolimab ® (subcutaneous injection PD-L1), was available in 1,000 hospitals and 1,000 pharmacies in more than 200 cities in 30 provinces of China, and was listed in the people-benefit insurance (urban customized commercial medical insurance) in 17 cities, including Wuxi, Changzhou, Nanjing, Suzhou, Yancheng, Yantai, Jining, Qingdao, Hebei, Shanxi, Ningbo, Xiamen, Fujian, making more and more patients afford our drugs, thus reducing social pressure, and improving the quality of life.

Other information included in the Annual Report

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the consolidated financial statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

刊載於年報內的其他信息

貴公司董事須對其他信息負責。其他信息包括刊載於年報內的信息，但不包括綜合財務報表及我們就此發出的核數師報告。

我們對綜合財務報表的意見並不涵蓋其他信息，我們亦不對該等其他信息發表任何形式的鑒證結論。

結合我們對綜合財務報表的審計，我們的責任是閱讀其他信息，在此過程中，考慮其他信息是否與綜合財務報表或我們在審計過程中所了解的情況存在重大抵觸或者似乎存在重大錯誤陳述的情況。基於我們已執行的工作，如果我們認為其他信息存在重大錯誤陳述，我們需要報告該事實。在這方面，我們沒有任何報告。

董事就綜合財務報表須承擔的責任

貴公司董事須負責根據國際會計準則理事會頒佈的《國際財務報告準則》及香港《公司條例》的披露規定擬備真實而中肯的綜合財務報表，並對其認為為使綜合財務報表的擬備不存在由於欺詐或錯誤而導致的重大錯誤陳述所需的內部控制負責。

在擬備綜合財務報表時， 貴公司董事負責評估 貴集團持續經營的能力，並在適用情況下披露與持續經營有關的事項，以及使用持續經營為會計基礎，除非 貴公司董事有意將 貴集團清盤或停止經營，或別無其他實際的替代方案。

審核委員會協助 貴公司董事履行監督 貴集團的財務報告過程的責任。

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

核數師就審計綜合財務報表承擔的責任

我們的目標，是對綜合財務報表整體是否不存在由於欺詐或錯誤而導致的重大錯誤陳述取得合理保證，並出具包括我們意見的核數師報告。我們僅向整體股東報告，除此以外，我們的報告不可用作其他用途。我們概不就本報告的內容對任何其他人士負責或承擔責任。

合理保證是高水準的保證，但不能保證按照《香港審計準則》進行的審計，在某一重大錯誤陳述存在時總能發現。錯誤陳述可以由欺詐或錯誤引起，如果合理預期它們單獨或匯總起來可能影響綜合財務報表使用者依賴財務報表所作出的經濟決定，則有關的錯誤陳述可被視作重大。

在根據《香港審計準則》進行審計的過程中，我們運用了專業判斷，保持了專業懷疑態度。我們亦：

- 識別和評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險，設計及執行審計程序以應對這些風險，以及獲取充足和適當的審計憑證，作為我們意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述，或凌駕於內部控制之上，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。

- 了解與審計相關的內部控制，以設計適當的審計程序，但目的並非對 貴集團內部控制的有效性發表意見。

- 評價董事所採用會計政策的恰當性及作出會計估計和相關披露的合理性。

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- 對董事採用持續經營會計基礎的恰當性作出結論。根據所獲取的審計憑證，確定是否存在與事項或情況有關的重大不確定性，從而可能導致對　貴集團的持續經營能力產生重大疑慮。如果我們認為存在重大不確定性，則有必要在核數師報告中提請使用者注意綜合財務報中的相關披露。假若有關的披露不足，則我們應當發表非無保留意見。我們的結論是基於核數師報告日止所取得的審計憑證。然而，未來事項或情況可能導致　貴集團不能持續經營。

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- 評價綜合財務報表的整體列報方式、結構和內容，包括披露，以及綜合財務報表是否中肯反映交易和事項。

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

- 就　貴集團內實體或業務活動的財務信息獲取充足、適當的審計憑證，以便對綜合財務報表發表意見。我們負責　貴集團審計的方向、監督和執行。

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

除其他事項外，我們與審核委員會溝通了計劃的審計範圍、時間安排、重大審計發現等，包括我們在審計中識別出內部控制的任何重大缺陷。

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

我們還向審核委員會提交聲明，說明我們已符合有關獨立性的相關專業道德要求，並與彼等溝通有可能合理地被認為會影響我們獨立性的所有關係和其他事項，以及在適用的情況下，採取的消除威脅措施或相關的防範措施。

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

從與審核委員會溝通的事項中，我們確定哪些事項對本期綜合財務報表的審計最為重要，因而構成關鍵審計事項。我們在核數師報告中描述這些事項，除非法律法規不允許公開披露這些事項，或在極端罕見的情況下，如果合理預期在我們報告中溝通某事項造成的負面後果超過產生的公眾利益，我們決定不應在報告中溝通該事項。

The engagement partner on the audit resulting in this independent auditor's report is HO Siu Fung Terence.

出具本獨立核數師報告的審計項目合夥人是何兆烽。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs"), which include all standards and interpretations approved by the International Accounting Standards Board ("IASB"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for wealth management products which have been measured at fair value. These financial statements are presented in RMB and all values are rounded to the nearest thousand (RMB'000) except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Group for the year ended December 31, 2022. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

(a) the contractual arrangement with the other vote holders of the investee;

(b) rights arising from other contractual arrangements; and

(c) the Group's voting rights and potential voting rights.

2. 編製基準及會計政策

2.1 編製基準

該等財務報表乃根據國際財務報告準則(「國際財務報告準則」)編製,包括國際會計準則理事會(「國際會計準則理事會」)批准的所有準則及詮釋、香港公認會計準則及香港公司條例之披露規定。除按公平值計量的若干金融工具外,該等財務報表乃根據歷史成本法編製。除另有說明外,該等財務報表以人民幣呈列,所有金額均約整至最接近的千元(人民幣千元)。

綜合基準

綜合財務報表包括本公司及其附屬公司(統稱「本集團」)截至2022年12月31日止年度的財務報表。附屬公司為本公司直接或間接控制的實體(包括結構性實體)。當本集團對參與被投資方業務的可變回報承擔風險或享有權利以及能透過其權力影響被投資方的回報時(即賦予本集團現有能力主導被投資方相關活動的既存權利),即取得控制權。

倘本公司直接或間接擁有少於被投資方過半數投票或類似權利,則本集團於評估其是否對被投資方擁有權力時會考慮一切相關事實及情況,包括:

(a) 與被投資方其他投票權持有人的合約安排;

(b) 其他合約安排產生的權利;及

(c) 本集團的投票權及潛在投票權。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.1 BASIS OF PREPARATION *(Continued)*

Basis of consolidation (Continued)

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2. 編製基準及會計政策(續)

2.1 編製基準*(續)*

綜合基準(續)

附屬公司的助務報表乃就與本公司於相同報告期間採用一致的會計政策編製。附屬公司的業績自本集團取得控制權當日起綜合入賬，並繼續綜合入賬直至有關控制權終止當日為止。

損益及其他全面收益各組成部分歸屬於本集團母公司擁有人及非控股權益，即使會導致非控股權益產生虧絀結餘。所有與本集團成員公司之間交易有關的集團內公司間的資產及負債、權益、收益、開支及現金流量均於綜合入賬時悉數對銷。

倘有事實及情況顯示上述三項控制因素中有一項或多項出現變化，本集團會重新評估其是否對被投資方擁有控制權。於附屬公司的擁有權權益變動(並無喪失控制權)於入賬時列作權益交易。

倘本集團失去對一間附屬公司的控制權，則其終止確認(i)該附屬公司的資產(包括商譽)及負債、(ii)任何非控股權益的賬面值及(iii)於權益內記錄的累計換算差額；及確認(i)已收代價的公平值、(ii)任何保留投資的公平值及(iii)損益中任何因此產生的盈餘或赤字。先前於其他全面收益內確認的本集團應佔部分按倘若本集團直接出售相關資產或負債而規定使用的相同基準重新分類至損益或保留溢利(如適用)。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised IFRSs for the first time for the current year's financial statements.

Amendments to IFRS 3	*Reference to the Conceptual Framework*
Amendments to IAS 16	*Property, Plant and Equipment: Proceeds before Intended Use*
Amendments to IAS 37	*Onerous Contracts – Cost of Fulfilling a Contract*
Annual Improvements to IFRS Standards 2018-2020	Amendments to IFRS 1, IFRS 9, Illustrative Examples accompanying IFRS 16, and IAS 41

2. 編製基準及會計政策(續)

2.2 會計政策變動及披露

本集團已就本年度的財務報表首次採納以下經修訂香港財務報告準則。

國際財務報告準則第3號(修訂本)	*概念框架之提述*
國際會計準則第16號(修訂本)	*物業、廠房及設備：擬定用途前之所得款項*
國際會計準則第37號(修訂本)	*虧損合約——履行合約之成本*
國際財務報告準則2018年至2020年的年度改進	國際財務報告準則第1號、國際財務報告準則第9號、國際財務報告準則第16號隨附之說明示例及國際會計準則第41號(修訂本)

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(Continued)*

The nature and the impact of the revised IFRSs that are applicable to the Group are described below:

(a) Amendments to IFRS 3 replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the Conceptual Framework for Financial Reporting (the "Conceptual Framework") issued in June 2018 without significantly changing its requirements. The amendments also add to IFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of IAS 37 or IFRIC-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying IFRS 3 should refer to IAS 37 or IFRIC-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group has applied the amendments prospectively to business combinations that occurred on or after January 1 2022. As there were no business combinations during the year, the amendments did not have any impact on the financial position and performance of the Group.

2. 編製基準及會計政策(續)

2.2 會計政策變動及披露*(續)*

經修訂國際財務報告準則的性質及影響闡述如下：

(a) 國際財務報告準則第3號(修訂本)以2018年6月發佈的財務報告概念框架之提述(「概念框架」)取代先前財務報表編製及呈列框架之提述，而無需重大改變其要求。該等修訂本亦為國際財務報告準則第3號增加確認原則的例外，實體可參考概念框架釐定資產或負債的構成要素。該例外情況規定，對屬於國際會計準則第37號或國際財務報告詮釋委員會詮釋第21號範圍內的負債及或然負債，倘該等負債屬單獨產生而非於業務合併中產生，應用國際財務報告準則第3號的實體應分別提述國際會計準則第37號或國際財務報告詮釋委員會詮釋第21號，而非概念框架。此外，該等修訂本澄清或然資產於收購日期不符合確認資格。本集團前瞻性地將該等修訂本適用於2022年1月1日或之後發生的業務合併。由於年內並無業務合併，該等修訂本對本集團的財務狀況及表現並無產生任何影響。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(Continued)*

(b) Amendments to IAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items as determined by IAS 2 *Inventories*, in profit or loss. The Group has applied the amendments retrospectively to items of property, plant and equipment made available for use on or after January 1, 2021. Since there was no sale of items produced prior to the property, plant and equipment being available for use, the amendments did not have any impact on the financial position or performance of the Group.

2. 編製基準及會計政策(續)

2.2 會計政策變動及披露*(續)*

(b) 國際會計準則第16號(修訂本)禁止實體從物業、廠房及設備項目的成本中扣除資產達到管理層預定的可使用狀態(包括位置與條件)過程中產生的項目的任何出售所得款項。取而代之，實體按照國際會計準則第2號存貨約定，於損益內確認出售任何該等項目的所得款項及該等項目的成本。本集團已就於2021年1月1日或之後可供使用之物業、廠房及設備項目追溯應用該等修訂本。由於在2021年1月1日或之後，在使物業、廠房及設備達致可供使用狀態的過程中並無出售任何產生的項目，故該等修訂本對本集團之財務狀況或表現並無構成任何重大影響。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(Continued)*

(c) Amendments to IAS 37 clarify that for the purpose of assessing whether a contract is onerous under IAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The Group has applied the amendments prospectively to contracts for which it has not yet fulfilled all its obligations at January 1, 2022 and no onerous contracts were identified. Therefore, the amendments did not have any impact on the financial position or performance of the Group.

2. 編製基準及會計政策(續)

2.2 會計政策變動及披露*(續)*

(c) 國際會計準則第37號的修正案闡明，為了評估國際會計準則第37號規定的合同是否虧損，履行合同的成本包括與合同直接相關的成本。與合同直接相關的成本包括履行合同的增量成本(例如，直接勞動力和材料)和與履行合同直接相關其他成本的分配(例如，用於履行合同的不動產、廠房和設備項目的折舊費分配以及合同管理和監督成本)。一般成本和管理成本與合同無關，除非根據合同明確向交易對手收取，否則不包括在內。本集團已對適用於截至2022年1月1日尚未履行全部義務的合同進行前瞻性修訂，且未發現任何虧損合同。因此，修訂對本集團的財務狀況或業績沒有任何影響。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(Continued)*

(d) *Annual Improvements to IFRSs 2018-2020* sets out amendments to IFRS 1, IFRS 9, Illustrative Examples accompanying IFRS 16, and IAS 41. Details of the amendments that are applicable to the Group are as follows:

- IFRS 9 *Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. The Group has applied the amendment prospectively from January 1, 2022. As there was no modification or exchange of the Group's financial liabilities during the year, the amendment did not have any impact on the financial position or performance of the Group.

2.2 會計政策變動及披露*(續)*

(d) 國際財務報告準則2018年至2020年之年度改進載列國際財務報告準則第1號、國際財務報告準則第9號、國際財務報告準則第16號隨附之説明示例及國際會計準則第41號(修訂本)。適用於本集團的該等修訂本詳情如下：

- 國際財務報告準則第9號金融工具：澄清於實體評估是否新訂或經修改金融負債的條款與原金融負債的條款存在實質差異時所包含的費用。該等費用僅包括借款人與債權人之間已支付或收取的費用，包括借款人或債權人代表其他方支付或收取的費用。本集團於2022年1月1日起前瞻性地應用該等修訂本。由於本集團於本年度內並無對金融負債作出任何修改或交換，因此該修訂本對本集團的財務狀況或表現並無產生任何影響。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSs

The Group has not applied the following new and revised IFRSs, that have been issued but are not yet effective, in these financial statements.

2.3 已頒佈但尚未生效的國際財務報告準則

本集團並未於財務報表中應用以下已頒佈但尚未生效的新訂及經修訂國際財務報告準則。

國際財務報告準則第10號及國際會計準則第28號(2011)(修訂本)	*投資者與其聯營公司或合營企業間出售資產或注資*[3]

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSs *(Continued)*

1 Effective for annual periods beginning on or after January 1, 2023
2 Effective for annual periods beginning on or after January 1, 2024
3 No mandatory effective date yet determined but available for adoption
4 As a consequence of the 2022 Amendments, the effective date of the 2020 Amendments was deferred to annual periods beginning on or after January 1, 2024.
5 As a consequence of the amendments to IFRS 17 issued in June 2020, IFRS 4 was amended to extend the temporary exemption that permits insurers to apply IAS 39 rather than IFRS 9 for annual periods beginning before January 1, 2023
6 An entity that chooses to apply the transition option relating to the classification overlay set out in this amendment shall apply it on initial application of IFRS 17

The Group is in the process of making an assessment of the impact of these new and revised IFRSs upon initial application. So far, the Group considers that these new and revised IFRSs may result in changes in accounting policies and are unlikely to have a significant impact on the Group's results of operations and financial position.

2. 編製基準及會計政策(續)

2.3 已頒佈但尚未生效的國際財務報告準則*(續)*

1 於2023年1月1日或之後開始的年度期間生效
2 於2024年1月1日或之後開始的年度期間生效
3 尚未釐定強制生效日期，惟可供採納
4 由於2022年修正案，2020年修正案的生效日期推遲至2024年1月1日或之後開始的年度期間。
5 由於2020年6月頒佈的國際財務報告準則第17號(修訂本)，國際財務報告準則第4號已作出修訂，以延長允許保險人於2023年1月1日前開始的年度期間間應用國際會計準則第39號而非國際財務報告準則第9號的臨時豁免。
6 選擇應用與本修訂所載分類重疊法有關的過渡選擇權的實體應於首次應用香港財務報告準則第17號時應用。

本集團現正評估該等新訂及經修訂國際財務報告準則於初始應用後的影響。迄今為止，本集團認為，該等新訂及經修訂國際財務報告準則可能導致會計政策變動及不大可能對本集團的經營業績及財務狀況造成重大影響。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fair value measurement

The Group measures certain financial instruments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liabilities, or in the absence of a principal market, in the most advantageous market for the asset or liabilities. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

2. 編製基準及會計政策(續)

2.4 重大會計政策概要

公平值計量

本集團於報告期末按公平值計量其若干金融工具。公平值乃在市場參與者於計量日期進行的有序交易中出售資產所收取或轉移負債所支付的價格。公平值計量乃基於假設出售資產或轉移負債的交易於資產或負債的主要市場或於未有主要市場的情況下，則於資產或負債的最有利市場進行。主要或最有利市場須為本集團可進入的市場。資產或負債的公平值乃基於市場參與者為資產或負債定價所用的假設計量(假設市場參與者依照彼等的最佳經濟利益行事)。

非金融資產公平值的計量則參考市場參與者可從使用該資產得到的最高及最佳效用，或把該資產售予另一可從使用該資產得到最高及最佳效用的市場參與者所產生的經濟利益。

本集團使用適用於不同情況的估值方法，而其有足夠資料計量公平值，以盡量利用相關可觀察輸入數據及盡量減少使用不可觀察輸入數據。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Fair value measurement (Continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2. 編製基準及會計政策(續)

2.4 重大會計政策概要*(續)*

公平值計量(續)

於財務報表中計量或披露公平值的所有資產及負債，均根據對公平值計量整體而言屬重大的最低級別輸入數據在下述公平值層級內進行分類：

第一層級－基於相同資產或負債於活躍市場的所報價格(未經調整)

第二層級－基於採用對公平值計量屬重大的可觀察(直接或間接)最低級別輸入數據的估值方法

第三層級－基於採用對公平值計量屬重大的不可觀察最低級別輸入數據的估值方法

就按經常性基準於財務報表確認的資產及負債而言，本集團透過於各報告期末重新評估分類(基於對公平值計量整體而言屬重大的最低級別輸入數據)確定是否發生不同等級之間的轉移。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, financial assets and non-current assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs. In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

非金融資產減值

倘存在減值跡象，或當須每年就資產進行減值測試(金融資產除外)，則會估計資產的可收回金額。資產的可收回金額為資產或現金產生單位的使用價值或公平值減出售成本兩者的較高者，並就個別資產釐定，除非資產並不產生明顯獨立於其他資產或資產組別的現金流入，於此情況下，則可收回金額按資產所屬現金產生單位的可收回金額釐定。

僅在資產賬面值高於其可收回金額的情況下，方會確認減值虧損。評估使用價值時，估計未來現金流量按可反映貨幣時間價值及資產特定風險的現時市場評估的稅前貼現率貼現至現值。減值虧損於其產生期間於損益中計入與該減值資產功能相符的開支類別。

本集團會在報告期末評估是否有跡象顯示先前確認的減值虧損已不存在或可能減少。倘出現此等跡象，則會估計可收回金額。僅當用以釐定資產可收回金額的估計有變時，方會撥回先前確認的資產減值虧損(商譽除外)，但不得超逾假設於過往年度並無就該項資產確認減值虧損而應釐定的賬面值(扣除任何折舊／攤銷)。減值虧損撥回計入產生期間的損益。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Property, plant and equipment and depreciation (Continued)

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold improvements	Shorter of remaining lease terms and estimated useful lives
Office equipment	19% to 32%
Laboratory equipment	19% to 32%
Transportation equipment	24%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

物業、廠房及設備以及折舊(續)

所有於物業、廠房及設備項目投入運作後產生的支出，如維修及保養費等，通常於該等支出產生期間自損益扣除。在符合確認條件的情況下，重大檢驗的開支於資產的賬面值資本化為重置成本。當物業、廠房及設備的重要部件須定期更換，本集團將該等部件確認為具有特定使用年期的個別資產，並對其相應地計提折舊。

折舊乃按直線法計算，以將各項物業、廠房及設備的成本按其估計可使用年期撇銷至其剩餘價值。就此採用的主要年折舊率如下：

租賃裝修	餘下租期及估計可使用年期的較短者
辦公設備	19%至32%
實驗室設備	19%至32%
運輸設備	24%

當一項物業、廠房及設備的各部分有不同可使用年期時，該項目的成本乃按合理基準在各部分之間分配，而各部分乃個別地折舊。剩餘價值、可使用年期及折舊方法至少於報告期末檢討，並作出調整(如適用)。

包括最初經確認的任何重大部分在內，物業、廠房及設備的項目於出售或預期其使用或出售不會帶來任何未來經濟利益時終止確認。於終止確認資產的年度內，在損益內確認的任何出售或廢棄損益，為銷售所得款項淨額與相關資產賬面值的差額。

Property, plant and equipment and depreciation (Continued)

Construction in progress represents a building under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Intangible assets are amortized on the straight-line basis over the following useful economic life:

Software	10 years

Research and development expenses

All research expenses are charged to profit or loss as incurred.

Research and development expenses (Continued)

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Office and laboratory	2 to 5 years
Leasehold land	40 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

在計算租賃付款的現值時，如果租賃中所隱含的利率不易確定，則本集團在租賃開始日期使用增量借款利率。在租賃開始日期之後，租賃負債金額增加反映利息增加及因作出之租賃付款而減少。此外，如有修改、租期發生變化、租賃付款的變化(即指數或利率變動所產生的未來租賃付款變動)或購買相關資產的選擇權評估的變更，租賃負債的賬面值將重新計量。

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of office properties (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment that are considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, and fair value through profit or loss ("FVTPL").

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

初始確認及計量

金融資產於初始確認時分類為其後按攤銷成本及按公平值計入損益計量。

於初始確認時,金融資產分類取決於金融資產的合約現金流量特點及本集團管理該等金融資產的業務模式。除並無重大融資成分或本集團已應用可行權宜方法(即不調整重大融資成分的影響)的貿易應收款項外,本集團初步按公平值另加(倘金融資產並非按公平值計入損益)交易成本計量金融資產。並無重大融資成分或本集團已應用可行權宜方法的貿易應收款項按國際財務報告準則第15號釐定的交易價格計量。

Investments and other financial assets (Continued)

Initial recognition and measurement (Continued)

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at FVTPL

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

後續計量

金融資產隨後視乎其分類按以下方式計量：

按攤銷成本列賬的金融資產其後使用實際利率法計量，並可能出現減值。當資產被終止確認、修訂或出現減值時，收益及虧損於損益確認。

按公平值計入損益的金融資產

按公平值計入損益的金融資產按公平值於財務狀況表列賬，而公平值變動淨額則於損益確認。

終止確認金融資產

金融資產(或(如適用)金融資產的部分或同類金融資產組別的部分)主要在下列情況下終止確認(即自本集團的綜合財務狀況表中剔除)：

- 自該資產收取現金流量的權利已屆滿；或
- 本集團已轉讓自該資產收取現金流量的權利，或須根據「轉移」安排在無嚴重延遲的情況下向第三方全數支付所獲得的現金流量；及(a)本集團已轉讓該資產的絕大部分風險及回報，或(b)本集團概無轉讓或保留該資產絕大部分風險及回報但已轉讓資產的控制權。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Derecognition of financial assets (Continued)

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liabilities are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

終止確認金融資產(續)

倘若本集團已轉讓自一項資產收取現金流量的權利或訂立轉移安排，則會評估是否保留該資產擁有權的風險及回報以及保留的程度。倘若概無轉讓或保留該資產絕大部分風險及回報，亦無轉讓資產的控制權，則本集團按其持續參與程度繼續確認有關已轉讓資產。在此情況下，本集團亦確認相關負債。已轉讓的資產及相關負債按可反映本集團保留的權利及責任的基準計量。

以已轉讓資產擔保形式呈現的持續參與乃以該項資產的原賬面值與本集團可能需要償還的最高代價兩者之較低者計量。

金融資產減值

本集團就並非按公平值計入損益持有的所有債務工具確認預期信貸虧損(「預期信貸虧損」)撥備。預期信貸虧損乃基於根據合約應付的合約現金流量與本集團預期收取的所有現金流量之間的差額釐定，並按原有實際利率的近似值貼現。預期現金流量將包括出售所持抵押品或構成合約條款的其他信用增級所得的現金流量。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment of financial assets (Continued)

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information. The Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

The Group considers a financial asset in default when contractual payments are 45-70 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

一般方法

預期信貸虧損分兩個階段確認。就自初始確認以來信貸風險並無大幅增加的信貸風險而言，會就未來12個月可能發生的違約事件所產生的信貸虧損計提預期信貸虧損撥備(12個月預期信貸虧損)。就自初始確認以來信貸風險大幅增加的信貸風險而言，須就預期於風險餘下存續期內產生的信貸虧損計提虧損撥備，不論違約的時間(整個存續期預期信貸虧損)。

於各報告日期，本集團評估金融工具的信貸風險自初始確認以來是否顯著增加。作此評估時，本集團比較金融工具於報告日期出現違約的風險與該金融工具於初始確認日期出現違約的風險，並考慮無須花費不必要成本或精力即可獲得的合理及有理據的資料，包括過往及前瞻性資料。

倘合約付款逾期45至70天，則本集團認為一項金融資產出現違約。然而，於若干情況下，倘若內部或外部資料顯示，在計及本集團持有的任何信用增級前，本集團不大可能悉數收取未償還合約款項，則本集團亦可認為金融資產出現違約。倘若無法合理預期收回合約現金流量，則撇銷金融資產。

Impairment of financial assets (Continued)

General approach (Continued)

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs.

Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs.

Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs.

一般方法(續)

按攤銷成本列賬的金融資產根據一般方法減值，並分類至以下階段以計量預期信貸虧損，惟下文所述應用簡化方法的貿易應收款項及合約資產除外。

第一階段 – 自初始確認以來信貸風險未顯著增加，且其虧損撥備等於12個月預期信貸虧損的金融工具

第二階段 – 自初始確認以來信貸風險顯著增加但並非信貸減值金融資產，且其虧損撥備等於整個存續期預期信貸虧損的金融工具

第三階段 – 於報告日期出現信貸減值(但並非購入或原已出現信貸減值)，且其虧損撥備等於整個存續期預期信貸虧損的金融資產

Impairment of financial assets (Continued)

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, financial liabilities included in other payables and accruals, interest-bearing bank borrowings, amounts due to related parties, and preferred shares.

簡化方法

並無重大融資成分或本集團應用可行權宜方法(即不調整重大融資成分的影響)的貿易應收款項,本集團應用簡化方法計算預期信貸虧損。簡化方法下,本集團並無追蹤信貸風險的變化,但於各報告日期根據整個存續期預期信貸虧損確認虧損撥備。本集團已根據其以往信貸虧損經驗,建立撥備矩陣,並就債務人及經濟環境的特定前瞻性因素作出調整。

金融負債

初始確認及計量

金融負債於初始確認時分類為按公平值計入損益的金融負債、貸款及借款或應付款項(如適用)。

所有金融負債均按公平值進行初始確認,對於貸款及借款以及應付款項,則扣除直接應佔交易成本。

本集團的金融負債包括貿易應付款項、其他應付款項及應計費用、附息銀行借款、應付一名關聯方款項及優先股。

Financial liabilities (Continued)

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, trade payables, financial liabilities included in other payables and accruals, other financial liabilities and amounts due to related parties are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Financial liabilities measured at FVTPL

Financial liabilities measured at FVTPL include preferred shares which are designated upon initial recognition as at fair value through profit or loss.

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. Gains or losses on liabilities designated at fair value through profit or loss are recognised in profit or loss, except for the gains or losses arising from the Group's own credit risk which are presented in other comprehensive income with no subsequent reclassification to the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities.

後續計量

金融負債隨後視乎其分類按以下方式計量：

按攤銷成本計量的金融負債(貸款及借款)

於初始確認後，貿易應付款項、其他應付款項及應計費用、附息銀行借款及應付一名關聯方款項其後使用實際利率法按攤銷成本計量，但於貼現影響不大的情況下則按成本列賬。收益及虧損在終止確認負債時及於攤銷過程中以實際利率法在損益表確認。

計算攤銷成本時，計及收購的任何折讓或溢價，以及視為實際利率一部分的費用或成本。按實際利率計算的攤銷計入損益及其他全面收益表的財務成本。

按公平值計入損益的金融負債

按公平值計入損益計量的金融負債包括於初始確認時指定為按公平值計入損益的優先股。

僅於國際財務報告準則第9號的標準滿足時，於初始確認時指定為按公平值計入損益的金融負債於初始確認日期指定。指定為按公平值計入損益的負債的收益或虧損於損益確認，惟於其他全面收益呈列及後續並無重新分類至損益表的本集團本身信貸風險產生的收益或虧損除外。

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liabilities is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Treasury shares

Own equity instruments which are reacquired and held by the Company or the Group (treasury shares) are recognised directly in equity at cost. No gain or loss is recognised in the statement of profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis and, in the case of finished goods, comprises direct materials and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

當現時存在法律上可強制執行的權利，可抵銷已確認金額，且有意以淨額結算或同時變現資產及償還負債，則金融資產及金融負債可互相抵銷，並於財務狀況表呈報淨額。

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash and bank balances, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

- in respect of deductible temporary differences associated with investments in subsidiaries, associates and a joint venture, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of the reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

When the grant relates to expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future costs and obligations, it is recognised in profit or loss in the period in which it becomes receivable.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Revenue recognition (Continued)

Revenue from contracts with customers (Continued)

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in IFRS 15.

(a) Sales of products

Revenue from the sale of products is recognised at the point in time when control of the asset is transferred to the customer, generally when the products are delivered and accepted by the customers.

During the year ended December 31, 2022, a majority sales of products were made through Jiangsu Simcere Pharmaceutical Co., Ltd. ("Jiangsu Simcere") to pharmacy stores and distributors which are the Group's customers. Jiangsu Simcere acted as a service provider of the Group and the service fees retained by Jiangsu Simcere are recognised as selling expenses.

Share-based payments (Continued)

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Share-based payments (Continued)

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

When the equity-settled award are exercised, the amount previously recognised in equity-settled share-based reserve will be transferred to share premium. When the equity-settled award are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in equity-settled share-based reserve will be transferred to retained earnings.

以股份為基礎的付款(續)

當股本結算獎勵的條款修訂時，會確認最少的開支，猶如獎勵的原始條款已達成而並無修訂條款一般。此外，倘任何修訂導致以股份為基礎的付款於修訂日期計量的公平值總額增加或於其他方面對僱員有利，則就該等修訂確認開支。

當股本結算獎勵註銷時，會視作獎勵已於註銷當日歸屬，而就獎勵尚未確認的任何開支會即時確認。這包括未能達成本集團或僱員控制範圍內非歸屬條件的任何獎勵。然而，倘有新獎勵取代已註銷的獎勵，並於授出當日指定為取代獎勵，則已註銷的獎勵及新獎勵會被視為根據前段所述原有獎勵的修訂。

當股本結算獎勵獲行使時，先前於以權益結算以股份為基礎的儲備確認的金額將轉撥至股份溢價。當股本結算獎勵於歸屬日期後被沒收或於屆滿日期仍未獲行使時，先前於以權益結算以股份為基礎的儲備確認的金額將轉撥至保留盈利。

退休金計劃

本集團於中國內地營運的附屬公司的僱員須參加當地市政府設立的中央退休金計劃。該等附屬公司須按僱員工資成本的若干百分比向中央退休金計劃作出供款。該等供款根據中央退休金計劃的規則須予支付時自損益中扣除。

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Borrowing costs

There were no borrowing costs eligible to be capitalised into plant and equipment during the reporting period. All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Foreign currencies

The financial statements are presented in RMB, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

外幣

財務報表以本公司功能貨幣人民幣呈列。本集團屬下各公司均可釐定其自身功能貨幣，而計入各公司財務報表的項目均以功能貨幣計量。本集團屬下各公司記錄的外幣交易初始以交易日的各現行功能貨幣匯率入賬。以外幣計值的貨幣資產與負債按報告期末通行的功能貨幣匯率換算。結算或換算貨幣項目所產生的差額於損益中確認。

按歷史成本計量並以外幣為單位的非貨幣項目按首次交易當日的匯率換算。按公平值計量並以外幣為單位的非貨幣項目按計量公平值當日的匯率換算。換算按公平值計量的非貨幣項目所產生的收益或虧損與確認該項目公平值變動的收益或虧損的處理方法一致(即公平值收益或虧損已於其他全面收益或損益中確認的項目的換算差額亦分別於其他全面收益或損益中確認)。

Foreign currencies (Continued)

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

3. 重大會計判斷及估計

本集團編製財務報表時需要管理層對影響收入、支出、資產及負債的呈報金額及隨附披露資料以及或然負債披露資料作出判斷、估計及假設。與該等假設及估計相關的不明朗因素或會導致日後須對受影響的資產或負債的賬面值作出大幅調整。

判斷

於應用本集團會計政策的過程中，除涉及估計的判斷外，管理層作出以下對財務報表中確認的金額影響最重大的判斷：

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Judgements *(Continued)*

Research and development expenses

All research costs are charged to the statement of profit or loss as incurred. Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred. Determining the amounts of development costs to be capitalised requires the use of judgements and estimation.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Research and development expenses

Accrual of research and development expenses The Group relies on Outsourced Service Providers to conduct, supervise, and monitor the Group's ongoing clinical trials in the Mainland China. Determining the amounts of research and development expenses incurred up to the end of each reporting period requires the management of the Group to estimate and measure the progress of receiving research and development services under the contracts with Outsourced Service Providers using inputs such as the number of patient enrolments, time elapsed and milestone achieved.

Provision for expected credit losses on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on internal credit ratings as groupings of debtors that have similar loss patterns.

3. 重大會計判斷及估計(續)

判斷 *(續)*

研發開支

所有研究成本於產生時自損益表中扣除。僅當本集團能夠證明完成無形資產的技術可行性以使該無形資產可供使用或出售、其完成意圖以及使用或出售該資產的能力、該資產未來如何產生經濟利益、完成項目所需的資源以及開發過程中可靠地計量支出的能力時，方可將開發新產品的項目產生的支出進行資本化及遞延。不符合該等條件的產品開發支出在產生時列作開支。釐定擬資本化的開發成本金額時需要使用判斷及估計。

估計不明朗因素

下文所述為於報告期末關於未來及其他主要估計不明朗因素的主要假設，將大有可能導致下一財政年度的資產及負債賬面值須作出重大調整。

研發開支

研發費用的計提本集團依靠外包服務提供者在中國大陸進行、監督和監測本集團正在進行的臨床試驗。確定截至每個報告期結束時發生的研發費用金額，需要本集團管理層根據與外包服務提供者簽訂的契約，使用患者入組數量、所用時間和實現的里程碑等輸入來估計和計量接受研發服務的進度。

貿易應收款項的預期信貸虧損撥備

本集團使用撥備矩陣計算貿易應收款項的預期信貸虧損。撥備率乃基於具有類似虧損模式的債務人組別的內部信用評級計算。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty *(Continued)*

Provision for expected credit losses on trade receivables (Continued)

The provision matrix is initially based on the credit loss rate of similar companies in the market as the Group has not had sufficient credit loss data. The Group will calibrate to adjust the expected loss rate with forward-looking information. The expected loss rate will be back-tested against observed default rates in the future and changes in the forward-looking estimates will be analysed.

The assessment of the correction among credit loss rates of comparable companies, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's expected credit loss rate and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 18 to the financial statements.

Recognition of income taxes and deferred tax assets

Determining income tax provision involves judgement on the future tax treatment of certain transactions and when certain matters relating to the income taxes have not been confirmed by the local tax bureau. Management evaluates tax implications of transactions and tax provisions are set up accordingly. The tax treatments of such transactions are reconsidered periodically to take into account all changes in tax legislation.

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

3. 重大會計判斷及估計(續)

估計不明朗因素(續)

貿易應收款項的預期信貸虧損撥備(續)

由於本集團並無足夠的信貸虧損數據，撥備矩陣初步依據市場上類似公司的信貸虧損率。本集團將按前瞻性資料調整預期虧損率。預期虧損率將根據未來觀察到的違約率進行回溯測試，並分析前瞻性估計的變動。

對可資比較公司的信貸虧損率、預測經濟情況及預期信貸虧損進行的評估修正屬重大估計。預期信貸虧損金額對狀況變化及預測經濟情況敏感。本集團的預期信貸虧損率及預測經濟情況亦未必能代表客戶未來的實際違約情況。有關本集團的貿易應收款項預期信貸虧損的資料披露於財務報表附註18。

確認所得稅及遞延稅項資產

釐定所得稅撥備涉及對若干交易的未來稅務處理及未獲地方稅務局確認的若干與所得稅有關項目作出判斷。管理層評估交易的稅務影響並據此作出稅項撥備。有關交易的稅務處理會定期重新考慮，以將所有稅法變更一併考慮。

僅在可能取得應課稅溢利抵銷可能動用虧損的情況下，方就未動用稅項虧損確認遞延稅項資產。在釐定可予確認的遞延稅項資產的數額時，須根據可能的時間、未來應課稅溢利的水平連同未來稅項計劃戰略作出重大管理層判斷。

Estimation uncertainty *(Continued)*

Fair value of preferred shares measured at FVTPL

The fair value of the preferred shares measured at FVTPL is determined using valuation techniques, including the discounted cash flow method, the back-solve method and the equity allocation model. Such valuation requires key assumptions include the risk-free interest rate, discounts for lack of marketability ("DLOM") and volatility, which are subject to uncertainty. Improper application of such parameters might result in material differences from the actual results.

The fair values of preferred shares at December 31, 2022 was nil (2021: RMB3,132,791,000). Further details are included in note 26 to the financial statements.

Fair value of share-based payment transactions

Estimating the fair value of share-based payment transactions requires the determination of the most appropriate valuation model, which depends on the terms and conditions of the grant. This estimate also requires the determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

For the measurement of the fair value of share-based payment transactions with employees at the grant date, the Group uses a binomial model. The assumptions and models used for estimating fair value for share-based payments transactions are disclosed in note 30 to the financial statements.

3. *重大會計判斷及估計(續)*

估計不明朗因素(續)

以按公平值計入損益計量的優先股的公平值

以按公平值計入損益計量的優先股的公平值乃採用貼現現金流量法、倒推法及股權分配模型等估值方法釐定。這種估值需要的關鍵假設包括存在不確定性的無風險利率、缺乏適銷性折讓(「缺乏適銷性折讓」)及波動性。該等參數的應用不當，可能會造成與實際業績的重大差異。

於2022年12月31日，優先股的公平值為零(2021: 人民幣3,132,791,000元)。進一步詳情載於財務報表附註26。

以股份為基礎的付款交易的公平值

估計以股份為基礎的付款交易的公平值，需要釐定最合適的估值模型，而這取決於授出的條款及條件。這種估計亦需要釐定估值模型的大部分適當輸入數據，包括購股權的預期年期、波動性及股息收益率，並對該等輸入數據作出假設。

為了計量在授出日期與僱員進行的以股份為基礎的付款交易的公平值，本集團使用一個二項式模型。用於估計以股份為基礎的付款交易的公平值的假設及模型披露於財務報表附註30。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty *(Continued)*

Leases – Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an incremental borrowing rate ("IBR") to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group "would have to pay", which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when it needs to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets (including right-of-use assets) at the end of the reporting period. The non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

3. 重大會計判斷及估計(續)

估計不明朗因素 *(續)*

租賃 – 估計增量借款利率

本集團無法即時釐定於租賃隱含的利率，因此，其使用增量借款利率(「增量借款利率」)以計量租賃負債。增量借款利率為本集團須支付的利率以借入具有類似年期(及有類似抵押品)的必要資金以在類似經濟環境下取得與使用權資產有類似價值的資產。因此，增量借款利率反映本集團「必須付出」的事物，其中須估計當無法獲得可觀察利率(例如並無訂立融資交易的附屬公司)或當須對其作出調整以反映租賃的條款及條件(例如，當租賃並非以附屬公司的功能貨幣計值)。本集團使用可得的可觀察輸入數據(例如市場利率)估計增量借款利率及須作出若干實體特定估計。

非金融資產減值(商譽除外)

本集團於報告期末評估所有非金融資產(包括使用權資產)有否減值跡象。非金融資產在有跡象顯示其賬面值可能無法收回時進行減值測試。當資產或現金產生單位之賬面值超過其可收回金額，即公平值減銷售成本與其使用價值之較高者，則存在減值。公平值減銷售成本乃基於類似資產按公平原則所進行具約束力的銷售交易所得數據或可觀察市場價格扣除出售資產的增量成本計算。計算使用價值時，管理層須估計資產或現金產生單位的預期未來現金流量，選擇合適的貼現率以計算該等現金流量的現值。

Hong Kong

The subsidiary incorporated in Hong Kong is subject to Hong Kong profits tax at the rate of 16.5% on any estimated assessable profits arising in Hong Kong during the reporting period. No provision for Hong Kong profits tax has been made as the Group has no assessable profits derived from or earned in Hong Kong during the reporting period.

Mainland China

The provision for corporate income tax in Mainland China is based on the statutory rate of 25% of the taxable profits determined in accordance with the Mainland China Corporate Income Tax Law which was approved and became effective on January 1, 2008, except for 3DMed Beijing and 3D Medicines, which were qualified as High and New Technology Enterprises to enjoy a preferential income tax rate of 15% from 2022 to 2024. This qualification is subject to review by the relevant tax authority in the Mainland China for every three years.

中國內地

中國內地的企業所得税撥備乃根據2008年1月1日批准並生效的《中華人民共和國企業所得税法》釐定的應納税利潤的25%的法定税率計提，除被認定為高新技術企業的思路迪北京和思路迪生物醫藥外，其於2022年至2024年可按優惠企業所得税税率15%納税計提。該資質每三年須經中國相關税務部門審核。

11. INCOME TAX (CONTINUED)

Mainland China *(Continued)*

A reconciliation of the tax expense applicable to loss before tax using the statutory rate of the jurisdictions in which the majority of the Group's subsidiaries are domiciled to the tax expense at the effective tax rate is as follows:

11. 所得稅(續)

中國內地*(續)*

採用本公司及其大部分附屬公司所處司法權區法定稅率計算的除稅前虧損適用的稅項開支與按實際稅率計算的稅項開支的對賬如下：

		2022 **RMB'000** **人民幣千元**	2021 RMB'000 人民幣千元

Expenses not deductible for tax	不可扣稅開支	**59,801**	21,838
Tax charge at the Group's effective rate	按本集團實際稅率計算的稅項	**–**	–

The Group has accumulated tax losses in Mainland China of RMB1,694,658,000 in aggregate as at December 31, 2022 (2021: RMB1,361,621,000), which will expire in one to ten years for 3DMed Beijing and 3D Medicines and one to five years for the rest of entities within the Group in Mainland China, to offset against future taxable profits of the companies in which losses were incurred.

本集團於2021年12月31日以及2022年12月31日分別在中國內地合共累計稅項虧損人民幣1,361,621,000元及人民幣1,694,658,000元，思路迪北京和思路迪生物醫藥的累計稅項虧損將於一至十年內到期，而本集團於中國內地的其他實體的累計稅項虧損將於一至五年內到期，以抵銷發生虧損的公司的未來應稅利潤。

The Group also has accumulated tax losses in the USA and Hong Kong of RMB49,175,000 in aggregate as at December 31, 2022 (2021: RMB39,186,000), that can be carried forward indefinitely to offset against future taxable profits of the companies in which losses were incurred.

本集團亦於2021年12月31日以及2022年12月31日分別在美國及香港產生合共累計稅項虧損人民幣39,186,000元及人民幣49,175,000元，可無限期結轉以抵銷發生虧損的公司的未來應稅利潤。

Deferred tax assets have not been recognised in respect of these tax losses as they have been incurred in subsidiaries that were loss-making in the past and it is not probable that they will generate sufficient taxable income in the foreseeable future to utilise such tax losses.

並未就該等稅項虧損確認遞延稅項資產，因該等虧損在過去一直產生虧損的附屬公司中產生，且並不認為於可預見的將來其可能有足夠的應課稅利潤以抵銷該等稅項虧損。

12. DIVIDENDS

No dividends have been declared and paid by the Company during the year (2021: Nil).

12. 股息

年內，本公司並無派付或宣派任何股息（2021年：無）。

13. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic loss per share amount is based on the loss attributable to ordinary equity holders of the parent and the weighted average number of ordinary shares in issue (excluding shares reserved for share incentive scheme) during the reporting period. The weighted average number of ordinary shares has been retrospectively adjusted for the effect of the implemented share subdivision (note 27).

No adjustment has been made to the basic loss per share amounts presented for the reporting period in respect of a dilution as the impact of the preferred shares and restricted share units had an anti-dilutive effect on the basic loss per share amounts presented.

The calculation of the basic and diluted loss are based on:

13. 母公司普通股權益持有人應佔每股虧損

每股基本虧損金額根據報告期的母公司普通股權益持有人應佔虧損及已發行普通股加權平均數（不包括股份激勵計劃預留股份）計算。普通股加權平均數已針對進行的股份拆細的影響作出追溯調整（附註27）。

由於優先股及受限制股份單位的影響對所呈列的每股基本虧損金額有反攤薄效應，故並無就攤薄對報告期所呈列的每股基本虧損金額作出調整。

每股基本及攤薄虧損按如下方式計算：

		2022	2021
Loss for the year	**虧損**		
Loss for the year attributable to ordinary equity holders of the parent, used in the basic loss per share calculation (RMB'000)	計算每股基本盈利所用的母公司普通股權益持有人應佔虧損（人民幣千元）	**(1,024,350)**	(1,434,092)

The Group estimated the risk-free interest rate based on the yield of the US Government Bond with maturity close to the expected exit timing as of the valuation date. The DLOM was estimated based on the option-pricing method. Under the option-pricing method, the cost of put option, which can hedge the price change before the privately held share can be sold, was considered as a basis to determine the lack of marketability discount. Volatility was estimated based on recognised standard deviation of daily stock price return of comparable companies for a period from the valuation date and with a similar span as time to expiration.

On December 15, 2022, the Company was successfully listed on the Main Board of the Stock Exchange and made an offering of 16,350,000 shares at a price HK$26.24 per share. All Preferred Shares were converted into ordinary shares upon completion of the IPO on December 15, 2022. The fair value of each Preferred Share on the conversion date is the offer price in the global offering.

The completion of the successful IPO has triggered the automatic termination of all the special rights granted to the Preferred Shares.

本集團根據截至估值日到期日接近預期退出時間的美國政府債券的收益率估計無風險利率。缺乏適銷性折讓乃基於期權定價法估計。根據期權定價法，認沽期權之成本(可對沖私人持有股份可予出售前之價格變動)乃視為釐定缺乏適銷性折讓之基準。波幅乃基於可資比較公司在估值日後及具有類似屆滿時間跨度的一段時間內每日股價收益率的確認標準偏差而估計得出。

2022年12月15日，本公司在證券交易所主機板成功上市，並以一定價格發行16,350,000股，每股26.24港元。所有優先股於2022年12月15日首次公開募股完成後轉換為普通股。每股優先股在轉換日的公允價值為全球發行中的發行價格。

30. SHARE-BASED PAYMENTS

(a) Shares issuance

Pursuant to the board resolution on June 22, 2021, the Company issued 440,015 ordinary shares with par value of HK$0.01 to Dr. Gong Zhaolong through his holding vehicle, Dragon Prosper Holding Limited, with par value consideration for the contribution of Dr. Gong Zhaolong devoted to the Group in the past.

The aforesaid transactions have been accounted for as share-based payment transactions. Accordingly, the Group measured the fair value of the issued shares on the issue date and recognised the compensation expenses of nil (2021: RMB59,240,000) for the reporting period.

30. 以股份為基礎的付款

(a) 股份發行

根據於2021年6月22日的董事會決議案，本公司透過龔兆龍博士的控股公司Dragon Prosper Holding Limited向其發行440,015股每股面值0.01港元的普通股，該面值代價作為龔兆龍博士過往對本集團所作貢獻的報酬。

上述交易已入賬列為以股份為基礎的付款交易。因此，本集團於發行日期計量所發行股份之公平值，並確認於報告期之薪酬開支為零(2021：人民幣59,240,000元)。

30. SHARE-BASED PAYMENTS (CONTINUED)

(a) Shares issuance *(Continued)*

The Group applied the back-solve method to determine the fair value of the shares issued at the date of issuance. Key assumptions are set out below:

30. 以股份為基礎的付款(續)

(a) 股份發行*(續)*

本集團應用倒推法釐定於發行日期所發行股份之公平值。主要假設載列如下：

		As at June 22, 2021 於2021年6月22日

(b) Pre-restructuring employee stock incentive

Before the completion of the Reorganization, certain employees (the "Granted Employees") of the Group were granted with restricted shares of the Predecessor Holdco, the immediate holding company of 3D Medicines before the Reorganization, as an incentive to retain and reward the Granted Employees.

On September 1, 2016 and December 31, 2017, a total of 451,828 restricted shares were granted to such Granted Employees. Each restricted share is converted into agreed registered capital of the Predecessor Holdco on exercise.

(b) 重組前僱員股份獎勵

於重組完成前，本集團若干僱員(「獲授僱員」)獲授重組前思路迪醫藥之直接控股公司前身控股公司之受限制股份，作為留住及獎賞獲授僱員之獎勵。

於2016年9月1日及2017年12月31日，共向該等獲授僱員授出451,828股受限制股份。每股受限制股份在行使時轉換為前身控股公司的協定註冊資本。

(c) Onshore employee stock incentive

From October 2018 to April 2019, 3D Medicines granted a total of 111,232 stock options and 95,239 restricted share units to certain Granted Employees.

Employee stock incentive mentioned in (b) and (c) are collectively referred as Share Awards.

The aforesaid transactions have been accounted for as share-based payments transactions as the Granted Employees were providing services to the Group during the vesting periods and hence the Group enjoyed the benefits. Accordingly, the fair value of services received in return for restricted shares and stock options granted is measured by reference to the fair value of the award granted and should be recognised by the Group.

(c) 境內僱員股份獎勵

2018年10月至2019年4月，思路迪醫藥向若干獲授僱員授出共計111,232份購股權及95,239份受限制股份單位。

(b)及(c)所述僱員股份獎勵統稱為股份獎勵。

上述交易已入賬列為以股份為基礎的付款交易，因為獲授僱員於歸屬期間內一直向本集團提供服務，因此本集團獲利。因此，作為所授出受限制股份及購股權之回報而獲得的服務之公平值參考所授出獎勵之公平值計量，應由本集團確認。

30. SHARE-BASED PAYMENTS (CONTINUED)

(c) Onshore employee stock incentive *(Continued)*

In June 2021, such Share Awards were terminated and the ordinary shares owned by the Granted Employees were repurchased by the Company at par value. The total Share Awards share-based payments expenses recognised in the consolidated statement of profit or loss and other comprehensive income are nil (2021: RMB345,000) for the reporting period.

(d) 2021 share incentive scheme

30. SHARE-BASED PAYMENTS (CONTINUED)

(d) 2021 share incentive scheme *(Continued)*

The Group's employees have the option to acquire the granted restricted share units at exercise price when all the vesting conditions are fulfilled, and therefore, the fair values of the restricted share units granted were estimated as at the grant date using binomial method, taking into account the terms and conditions upon which the restricted share units were granted. The following table lists the inputs to the model used to determine the fair values of the restricted share units granted in 2022 and 2021:

30. 以股份為基礎的付款(續)

(d) 2021年股份激勵計劃*(續)*

本集團僱員有權於所有歸屬條款獲達成時按行使價收購已授出的受限制股份單位，因此，已授出的受限制股份單位的公平值乃於授出日期使用二項式法估計，當中計及受限制股份單位授出的條款及條件。下表列出釐定於2022年及2021年所授出受限制股份單位之公平值所用模型之輸入數據：

		As at October 6, 2022 於2022年10月6日	As at September 30, 2021 於2021年9月30日
Expected volatility (%)	預期波幅(%)	44.0	44.4
Risk-free interest rate (%)	無風險利率(%)	3.63	1.29
Exercise multiple	行使倍數	10.0	2.2-2.8

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

預期波幅反映過往波幅指示未來趨勢，但未必亦為實際結果之假設。

The Group recognised the total expenses of RMB141,694,000 for the year ended December 31, 2022 (2021: RMB105,074,000), in relation to 2021 share incentive scheme of the Company.

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments mainly comprise cash and bank balances, and wealth management products, and interesting-bearing bank borrowings. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables, financial assets included in prepayments, other receivables and other assets, trade payables and financial liabilities included in other payables and accruals, which arise directly from its operations.

36. 財務風險管理目標及政策

本集團主要金融工具主要包括現金及現金等價物、理財產品及附息銀行借款等。該等金融工具之主要用途乃為本集團業務籌資。本集團擁有貿易應收款項、計入預付款項、其他應收款項及其他資產的金融資產、貿易應付款項及計入其他應付款項及應計費用的金融負債等多項其他金融資產及負債，均直接於本集團營運中產生。

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

The main risks arising from the Group's financial instruments are foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

Foreign currency risk

Foreign currency risk is the risk of loss resulting from changes in foreign currency exchange rates. Fluctuations in exchange rates between RMB and other currencies in which the Group conducts business may affect the Group's financial condition and results of operations.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in foreign currency exchange rates, with all other variables held constant, of the Group's loss before tax (due to changes in the fair value of monetary assets and liabilities) and the Group's equity.

36. 財務風險管理目標及政策（續）

本集團金融工具產生之主要風險為外匯風險、信貸風險及流動資金風險。董事會檢討及協定管理各項相關風險之政策，概述如下。

外幣風險

外幣風險為外幣匯率變動導致虧損的風險。人民幣與本集團開展業務所用其他貨幣之間匯率波動或會影響本集團財務狀況及經營業績。

下表說明於報告期末，本集團的除税前虧損（由於貨幣資產及負債的公平值變動）及本集團權益對外幣匯率合理可能變化的敏感度（在所有其他變量保持不變的情況下）。

Credit risk

The Group trades only with recognised and creditworthy parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. Receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. The credit risk of the Group's other financial assets, which comprise cash and cash equivalents and financial assets included in prepayments, other receivables and other assets, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

信貸風險

本集團僅與獲認可及信譽良好的交易方進行交易。本集團之政策為全部擬獲授信貸期之客戶均須通過信貸評核程序。本集團不斷監控應收款項結餘，且其所面對壞賬風險並不重大。本集團其他金融資產（包括現金及現金等價物、計入預付款項、其他應收款項及其他資產的金融資產）的信貸風險源自對手方違約，最高風險金額相等於該等工具賬面值。

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Credit risk *(Continued)*

For other receivables and other assets, management makes periodic collective assessment as well as individual assessment on the recoverability of other receivables based on historical settlement records and past experience. The directors believe that there is no material credit risk inherent in the Group's outstanding balance of other receivables.

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as December 31.

The amounts presented are gross carrying amounts for financial assets.

36. 財務風險管理目標及政策（續）

信貸風險*（續）*

就其他應收款項及其他資產而言，管理層定期根據過往付款記錄及逾期經歷對其他應收款項的可收回性作出共同及個別評估。董事認為本集團其他應收款項的尚未償還結餘並無重大固有信貸風險。

下表顯示根據本集團信貸政策（主要基於逾期資料，除非在毋須付出不必要的成本或努力下取得其他資料）的信貸質素及最高風險，以及於報告期末之年末階段分類。
